

Unlock More Fun

Harness the power of Tic Shaq Toe Basketball's unique play modes to achieve peak arcade performance.

Did You Know?

Tic Shaq Toe Basketball is more than a "straight shooter" – it's a strategic, fun-filled experience boasting three distinct play modes. For casual or competitive arcade-goers, Andamiro's new attraction offers a mode for any venue's taste.

Let's dive into what makes each mode special:

1. Fix Play Mode: In this mode, once a player successfully makes a shot, the corresponding X or O on the tic-tac-toe board is permanently secured. This means

that each basket can only be claimed once, and its mark (X or O) remains fixed throughout the game, emphasizing strategic shot selection.

2. Cancel Play Mode: In this strategic mode, players can target their opponent's claimed baskets. A successful shot in a basket marked with the opponent's X or O will erase that mark, effectively "canceling" or clearing the opponent's previous shot. Cancel mode adds a layer of defense, as players can focus on undoing their opponent's progress, leading to a game in which both offensive and defensive strategies are key to winning.

3. Steal Play Mode: This dynamic mode introduces a competitive twist. When a player makes a successful shot in a basket already marked with the opponent's X or O, that basket's allegiance "changes." The successful shot changes the existing mark to the shooter's own X or O. Steal mode encourages players to aim for their opponent's baskets to turn the tide in their favor, making the game more unpredictable and exciting.

Insider Tip

The latest reporting from the field reveals that Steal Mode is proving to be the most popular and lucrative mode, drawing players back for more.

Engage Operators

Let your customers know they have the power to operate in their preferred style. Tic Shaq Toe's play modes are operator-selectable through the game's settings.

Using the game's settings LCD, the operator navigates to:

- > CHECK TYPE

Selects the desired game type:

- > CHANGE (steal)
- > CLEAR (cancel)
- > FIX (secured)
- >> SAVE and EXIT

Distributor Notes:

1. Current default mode is FIX. Future units will ship on CHANGE (the steal!).

2. Mode options are internally selected by operator; it is not a player-facing selection.

A Novel Experience

Featuring NBA legend Shaquille O'Neal, Tic Shaq Toe Basketball is the perfect blend of easy-to-learn gameplay and challenging competition. Suitable for all ages, it allows for solo play against the game's AI or head-to-head battles.
