ATOM
JUKEBOX

MEET THE ATOM:
SMALL IN SIZE, BIG ON EVERYTHING ELSE

GOOD THINGS COME IN SMALL PACKAGES!

The Atom jukebox boasts a small footprint: less than 2' high and 19" wide — perfect for venues where wall space is at a premium. At only 33 lbs, this easily transportable and easily shippable jukebox weighs the same as a microwave oven. And if those numbers don't impress you, this one surely will: a completely straightforward and hassle-free 1-person installation!

Because it's from AMI, you can count on it to deliver the same sound and quality as previous jukeboxes. The Atom jukebox is a compact, yet complete entertainment package of music, videos, and digital signage.

- Give your venues' guests access to AMI's digital catalog of millions of songs, including entire albums, timeless classics, and the newest hits.
- Utilize content filtering to tailor the available music selection at your venues, aligning perfectly with their desired ambiance and vibe.
- Use AMI Ad Manager to craft, plan, and manage your unique advertisements for display on the jukebox and connected TVs.
- Deliver captivating in-venue entertainment with tens of thousands of selectable music videos that play on TVs you connect to the Atom.

PLAY MUSIC VIDEOS

- When a patron selects a song that has an available music video, the jukebox UI (or AMI Music app UI) suggests upgrading to the video selection.
- Patrons pay a small upcharge for video selections.
- Selected videos play on the TVs you connect to your Atom.
- AMI's Music Video On-Demand (MVOD) feature grants players access to the full library of more than 35,000 music videos.

MANAGE YOUR ROUTE

AMI Co-Pilot* makes managing your Atom, and all AMI jukeboxes, easy – no matter where you are. With countless benefits for both operators and location staff, this is one mobile app that does it all.

- Access Jukebox Remote Control Functions.
- Enable and Manage Background Music.
- Create Digital Advertisements.
- Customize the Atom's User Interface.
- Notify AMI Music App Users.
- Troubleshoot the Jukebox.
- Earn Free Credits with AMI's Staff Rewards Program.
- Activate Event Mode.
- View Jukebox Connections and Status Reports.
- And more!

Feature permissions are set and controlled by the Operator Executive.
