

# AVS Smart Cooler Market

Powered By:  SANDSTAR

## Just Grab-and-Go

AVS Smart Cooler Market is an intelligent replacement for traditional vending experiences and the first AI enabled retail solution. Customers will be engaged like never before with grab-and-go convenience, autonomous checkout, smart interaction and big data analysis powered by computer vision and deep learning.

### Key Features

#### Accuracy Rate > 99%

Unlock the retailing power of human hand delivery with active computer vision technology recognizing products selected in real time.

#### Smart Display

Customizable merchandising for any product category.

#### Easy Deployment

Deploy a fully integrated new smart cabinet or upgrade your existing cabinets or coolers with our intelligent retailing retrofit kit.

#### Payment Flexibility

Easily pay via mobile app, mobile wallets, credit card tap/swipe or QR code.

#### Intelligent Operation

Fully integrated VMS system provides real-time operational data and analytics to track inventory, schedule replenishment, analytics for business intelligence insights, merchandise and price changes all displayed centrally or on your mobile.

## SHOP & GO CONVENIENCE

Our systems are secure, accurate and fast - suitable for placement in public or captive markets. Set them as an end cap in an existing store, create a 24/7 store front or create a new stand-alone destination. Eliminate the inconvenience of bar scanning or waiting in line.

-  a. Multi sensor capabilities CV
-  b. Optional Voice Assistance and Age verification
-  c. Optional Data Analytics
-  d. Optional Video advertising - show a topper screen
-  e. New Payment portal and payment APP
-  f. Central control VMS system
-  g. IOT solution

**CoolBlu EZ Lift Refrigeration Module**

### Benefits

-  **Lowest Cost of Ownership**
-  Greater flexibility and response time to customer requests or immediate changes
-  Minimizes the number of coolers one needs to keep in inventory
-  Saves time and money from having to physically change out coolers on location

### Modular Refrigeration Deck/EZ Lift System

The complete refrigeration deck can be removed from the front of the machine within minutes—saving time and money. CoolBlu Coolers have one standard deck that fits across all models. **The lift system inside CoolBlu is truly one of a kind.**

### Larger Capacity, Larger Revenue

The CoolBlu Cooler has 27 usable cubic feet inside. With five shelves featuring eight facings that go nine bottles deep.

#### Benefits:

-  With a total capacity of 360, the CoolBlu Cooler offers up to 40% more capacity compared to competitors.
